- Laravel
- Mysql
- Angular

Projects

PORTFOLIO ☐
Developed a dynamic personal portfolio using HTML, CSS, and JavaScript, enhanced with Framer Motion for smooth animations. The portfolio showcases all my projects and skills, offering an interactive and visually appealing user experience.

AI Trip Planner ☐
Built a generative AI trip planner using Gemini, React.js, and Firebase to create personalized itineraries with Google OAuth integration.

TaskFlow ☐
A task management system built with React.js, Spring Boot, Tailwind CSS, and GSAP, featuring drag-and-drop functionality, role-based authentication, and CRUD operations for tasks and employees.
4o

3D Apple Promo Website ☐
Built a 3D Apple promo website using React.js, Tailwind CSS, GSAP, and Three.js, delivering an immersive and interactive user experience. The site features stunning 3D animations and smooth transitions, effectively showcasing Apple's product aesthetics and functionality.

Ochi Website clone ☐
A visually engaging clone of the Ochi website built with React, Tailwind CSS, GSAP and Framer Motion.

Real Time Location Tracker ☐
A real-time tracker for monitoring and tracking the live location of individuals. Built with HTML, CSS, and JavaScript.

React DiceGame ☐
Developed an interactive dice game using React.js, offering an engaging and user-friendly experience.

FOOD SAVER ☐
A Laravel-based donation platform to reduce waste by allowing people to donate unused items like clothes, footwear, stationery, and food from events to the needy.

CARZ SOLUTION ↗

A Django-based service platform that provides on road assistance job opportunities for mechanics, and real-time vehicle service tracking for customers.
